Over 90% of Our Moves Come in Under Estimate.

At litemovers, you will always receive an honest and fair estimate of cost. We will NEVER “low-ball” rates to win your job, and then raise your price when the job is finished! As a matter of process, we will provide you with a detailed estimate that addresses the amount of time, equipment, and materials we need to perform the job effectively. This will also allow you to understand how making changes in the size or scope of your move, either before or during the move, may have an affect the total cost.

When we assist with the planning, we are able to provide the most value to you and also make recommendations that allow you streamline the costs when possible. We work efficiently to provide you with maximum value.

HIRING A DEDICATED PROFESSIONAL STAFF IS HOW WE MAKE IT HAPPEN.

At litemovers, our team members are career professionals. Prior to hiring each new team member, a complete background check is performed and each must pass stringent drug testing. As part of our ongoing training, our movers are reviewed and graded on performance and customer relations and given appropriate feedback to ensure they remain up to the litemovers standards.
